

## Humic Maxx

Super Roots 98% W/V - Humic Acid with Fulvic Acid in Potassium 'F' Humate form. It makes the soil more workable and retains water soluble inorganic fertilizers in the root zones and releases them to plants when they needed.

It stimulates root growth especially lengthwise. It increases the permeability of plant membranes and resulting in prompting up take of nutrients.

### **DOSE :**

Drip Irrigation	:	2 g/Liter of water
Foliar	:	
Application	:	1 g/Liter of water

### **PACKING DETAILS:**

25 kg  
1/2 kg
